SUBJECT: Federal MPs' letters and Protecting ANZACs' gift of freedom
<http://www.conscious.com.au/letters.html>

Dear Mr. Abbott:

Correspondence with Greg Combet, Chris Bowen, Greg Hunt, John Faulkner and other MPs, Tony Abbott's Senior Policy Adviser, CSIRO and Bureau of Meteorology executives, prominent academics, ABC and Fairfax Media executives and journalists and responses to my report entitled *CSIROh! Climate of Deception? Or First Step to Freedom?* is available publicly at <http://www.conscious.com.au/letters.html>

Included are:

- Analysis and summary of MPs' responses including membership of the Ostrich Club;
- Greg Combet's documented extensive misrepresentations of climate. Is his overseeing of subsidies to a union super fund he previously directed a conflict of interest?
- Greg Hunt's documented support for UN Agenda 21 contradicting his denials*;
- Documentation of MPs' associations with unconstitutional UN Agenda 21* including Greens pushing it and their highly regressive carbon dioxide tax hurting the poor while giving banks windfall profits if CO2 '*trading*' recovers;
- CSIRO & BOM executives' effective acceptance of my report; their repeated failure to provide empirical scientific evidence that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998, 15 years ago. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. Both banks will gain windfall profits if carbon dioxide '*trading*' recovers;
- Public posting of my Lawful Notice to CSIRO and BOM executives and to Fairfax reporter Ben Cubby following his documented lies and to Fairfax's Mike Carlton;

* *Please note section 44 of Australia's Constitution.*

On Saturday, April 13th, 2013 the Liberal National Party's Wide Bay federal electorate branch of Nationals parliamentary leader Warren Truss passed a motion opposing laws and/or regulations to enact UN Agenda 21.

To confidentially discuss five years' extensive independent research supporting MPs please call or email. As we honor Anzacs let's protect Australia's sovereignty and people's freedom.

Dear Mr. Briggs:

Correspondence with Greg Combet, Chris Bowen, Greg Hunt, John Faulkner and other MPs, Tony Abbott's Senior Policy Adviser, CSIRO and Bureau of Meteorology executives, prominent academics, ABC and Fairfax Media executives and journalists and responses to my report entitled *CSIROh! Climate of Deception? Or First Step to Freedom?* is available publicly at <http://www.conscious.com.au/letters.html>

Included are:

- Analysis and summary of MPs' responses including membership of the Ostrich Club;
- Greg Combet's documented extensive misrepresentations of climate. Is his overseeing of subsidies to a union super fund he previously directed a conflict of interest?
- Greg Hunt's documented support for UN Agenda 21 contradicting his denials*;
- Documentation of MPs' associations with unconstitutional UN Agenda 21* including Greens pushing it and their highly regressive carbon dioxide tax hurting the poor while giving banks windfall profits if CO2 '*trading*' recovers;
- CSIRO & BOM executives' effective acceptance of my report; their repeated failure to provide empirical scientific evidence that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998, 15 years ago. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. Both banks will gain windfall profits if carbon dioxide '*trading*' recovers;

CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. SUBJECT: Federal MPs' letters and Protecting ANZACs' gift of freedom
<http://www.conscious.com.au/letters.html>

Dear Mr. Entsch:

Correspondence with Greg Combet, Chris Bowen, Greg Hunt, John Faulkner and other MPs, Tony Abbott's Senior Policy Adviser, CSIRO and Bureau of Meteorology executives, prominent academics, ABC and Fairfax Media executives and journalists and responses to my report entitled *CSIROh! Climate of Deception? Or First Step to Freedom?* is available publicly at <http://www.conscious.com.au/letters.html>

Included are:

- Analysis and summary of MPs' responses including membership of the Ostrich Club;
- Greg Combet's documented extensive misrepresentations of climate. Is his overseeing of subsidies to a union super fund he previously directed a conflict of interest?
- Greg Hunt's documented support for UN Agenda 21 contradicting his denials*;
- Documentation of MPs' associations with unconstitutional UN Agenda 21* including Greens pushing it and their highly regressive carbon dioxide tax hurting the poor while giving banks windfall profits if CO2 '*trading*' recovers;
- CSIRO & BOM executives' effective acceptance of my report; their repeated failure to provide empirical scientific evidence that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998, 15 years ago. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. Both banks will gain windfall profits if carbon dioxide '*trading*' recovers;
- Public posting of my Lawful Notice to CSIRO and BOM executives and to Fairfax reporter Ben Cubby following his documented lies and to Fairfax's Mike Carlton;

* *Please note section 44 of Australia's Constitution.*

On Saturday, April 13th, 2013 the Liberal National Party's Wide Bay federal electorate branch of Nationals parliamentary leader Warren Truss passed a motion opposing laws and/or regulations to enact UN Agenda 21.

To confidentially discuss five years' extensive independent research supporting MPs please call or email. As we honor Anzacs let's protect Australia's sovereignty and people's freedom.

Dear Ms. Grierson:

Correspondence with Greg Combet, Chris Bowen, Greg Hunt, John Faulkner and other MPs, Tony Abbott's Senior Policy Adviser, CSIRO and Bureau of Meteorology executives, prominent academics, ABC and Fairfax Media executives and journalists and responses to my report entitled *CSIROh! Climate of Deception? Or First Step to Freedom?* is available publicly at <http://www.conscious.com.au/letters.html>

Included are:

- Analysis and summary of MPs' responses including membership of the Ostrich Club;
- Greg Combet's documented extensive misrepresentations of climate. Is his overseeing of subsidies to a union super fund he previously directed a conflict of interest?
- Greg Hunt's documented support for UN Agenda 21 contradicting his denials*;
- Documentation of MPs' associations with unconstitutional UN Agenda 21* including Greens pushing it and their highly regressive carbon dioxide tax hurting the poor while giving banks windfall profits if CO2 '*trading*' recovers;
- CSIRO & BOM executives' effective acceptance of my report; their repeated failure to provide empirical scientific evidence that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998, 15 years ago. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. Both banks will gain windfall profits if carbon dioxide '*trading*' recovers;

Dear Ms. Macklin:

Correspondence with Greg Combet, Chris Bowen, Greg Hunt, John Faulkner and other MPs, Tony Abbott's Senior Policy Adviser, CSIRO and Bureau of Meteorology executives, prominent academics, ABC and Fairfax Media executives and journalists and responses to my report entitled *CSIROh! Climate of Deception? Or First Step to Freedom?* is available publicly at <http://www.conscious.com.au/letters.html>

Included are:

- Analysis and summary of MPs' responses including membership of the Ostrich Club;
- Greg Combet's documented extensive misrepresentations of climate. Is his overseeing of subsidies to a union super fund he previously directed a conflict of interest?
- Greg Hunt's documented support for UN Agenda 21 contradicting his denials*;
- Documentation of MPs' associations with unconstitutional UN Agenda 21* including Greens pushing it and their highly regressive carbon dioxide tax hurting the poor while giving banks windfall profits if CO2 '*trading*' recovers;
- CSIRO & BOM executives' effective acceptance of my report; their repeated failure to provide empirical scientific evidence that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998, 15 years ago. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. Both banks will gain windfall profits if carbon dioxide '*trading*' recovers;
- Public posting of my Lawful Notice to CSIRO and BOM executives and to Fairfax reporter Ben Cubby following his documented lies and to Fairfax's Mike Carlton;

* *Please note section 44 of Australia's Constitution.*

On Saturday, April 13th, 2013 the Liberal National Party's Wide Bay federal electorate branch of Nationals parliamentary leader Warren Truss passed a motion opposing laws and/or regulations to enact UN Agenda 21.

To confidentially discuss five years' extensive independent research supporting MPs please call or email. As we honor Anzacs let's protect Australia's sovereignty and people's freedom.

FROM: Malcolm Roberts, malcolmr@conscious.com.au, Phone: 04 1964 2379
DATE: Thursday, April 25th, 2013
SUBJECT: Federal MPs' letters and Protecting ANZACs' gift of freedom
<http://www.conscious.com.au/letters.html>

Dear Mr. Neville:

Correspondence with Greg Combet, Chris Bowen, Greg Hunt, John Faulkner and other MPs, Tony Abbott's Senior Policy Adviser, CSIRO and Bureau of Meteorology executives, prominent academics, ABC and Fairfax Media executives and journalists and responses to my report entitled *CSIROh! Climate of Deception? Or First Step to Freedom?* is available publicly at <http://www.conscious.com.au/letters.html>

Included are:

- Analysis and summary of MPs' responses including membership of the Ostrich Club;
- Greg Combet's documented extensive misrepresentations of climate. Is his overseeing of subsidies to a union super fund he previously directed a conflict of interest?
- Greg Hunt's documented support for UN Agenda 21 contradicting his denials*;
- Documentation of MPs' associations with unconstitutional UN Agenda 21* including Greens pushing it and their highly regressive carbon dioxide tax hurting the poor while giving banks windfall profits if CO2 '*trading*' recovers;
- CSIRO & BOM executives' effective acceptance of my report; their repeated failure to provide empirical scientific evidence that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998, 15 years ago. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. Both banks will gain windfall profits if carbon dioxide '*trading*' recovers;
- Public posting of my Lawful Notice to CSIRO and BOM executives and to Fairfax reporter Ben Cubby following his documented lies and to Fairfax's Mike Carlton;

* *Please note section 44 of Australia's Constitution.*

On Saturday, April 13th, 2013 the Liberal National Party's Wide Bay federal electorate branch of Nationals parliamentary leader Warren Truss passed a motion opposing laws and/or regulations to enact UN Agenda 21.

To confidentially discuss five years' extensive independent research supporting MPs please call or email. As we honor Anzacs let's protect Australia's sovereignty and people's freedom.

SUBJECT: Federal MPs' letters and Protecting ANZACs' gift of freedom
<http://www.conscious.com.au/letters.html>

Dear Mr. Ripoli:

Correspondence with Greg Combet, Chris Bowen, Greg Hunt, John Faulkner and other MPs, Tony Abbott's Senior Policy Adviser, CSIRO and Bureau of Meteorology executives, prominent academics, ABC and Fairfax Media executives and journalists and responses to my report entitled *CSIROh! Climate of Deception? Or First Step to Freedom?* is available publicly at <http://www.conscious.com.au/letters.html>

Included are:

- Analysis and summary of MPs' responses including membership of the Ostrich Club;
- Greg Combet's documented extensive misrepresentations of climate. Is his overseeing of subsidies to a union super fund he previously directed a conflict of interest?
- Greg Hunt's documented support for UN Agenda 21 contradicting his denials*;
- Documentation of MPs' associations with unconstitutional UN Agenda 21* including Greens pushing it and their highly regressive carbon dioxide tax hurting the poor while giving banks windfall profits if CO2 '*trading*' recovers;
- CSIRO & BOM executives' effective acceptance of my report; their repeated failure to provide empirical scientific evidence that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998, 15 years ago. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. Both banks will gain windfall profits if carbon dioxide '*trading*' recovers;
- Public posting of my Lawful Notice to CSIRO and BOM executives and to Fairfax reporter Ben Cubby following his documented lies and to Fairfax's Mike Carlton;

* *Please note section 44 of Australia's Constitution.*

SUBJECT: Federal MPs' letters and Protecting ANZACs' gift of freedom
<http://www.conscious.com.au/letters.html>

Dear Mr. Thomson:

Correspondence with Greg Combet, Chris Bowen, Greg Hunt, John Faulkner and other MPs, Tony Abbott's Senior Policy Adviser, CSIRO and Bureau of Meteorology executives, prominent academics, ABC and Fairfax Media executives and journalists and responses to my report entitled *CSIROh! Climate of Deception? Or First Step to Freedom?* is available publicly at <http://www.conscious.com.au/letters.html>

Included are:

- Analysis and summary of MPs' responses including membership of the Ostrich Club;
- Greg Combet's documented extensive misrepresentations of climate. Is his overseeing of subsidies to a union super fund he previously directed a conflict of interest?
- Greg Hunt's documented support for UN Agenda 21 contradicting his denials*;
- Documentation of MPs' associations with unconstitutional UN Agenda 21* including Greens pushing it and their highly regressive carbon dioxide tax hurting the poor while giving banks windfall profits if CO2 '*trading*' recovers;
- CSIRO & BOM executives' effective acceptance of my report; their repeated failure to provide empirical scientific evidence that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998, 15 years ago. CSIRO's Chief Executive is on the Advisory Board of Bank of America Merrill Lynch and was a Director of Rothschilds Bank in Australia. Both banks will gain windfall profits if carbon dioxide '*trading*' recovers;
- Public posting of my Lawful Notice to CSIRO and BOM executives and to Fairfax reporter Ben Cubby following his documented lies and to Fairfax's Mike Carlton;

* *Please note section 44 of Australia's Constitution.*

On Saturday, April 13th, 2013 the Liberal National Party's Wide Bay federal electorate branch of Nationals parliamentary leader Warren Truss passed a motion opposing laws and/or regulations to enact UN Agenda 21.

To confidentially discuss five years' extensive independent research supporting MPs please call or email. As we honor Anzacs let's protect Australia's sovereignty and people's freedom.
