Dear Ian:

Thank you for your letter dated February 26<sup>th</sup>, 2013. I'm pleased that since our July 29<sup>th</sup>, 2011 email exchange your stated position appears to be moving toward empirical scientific reality.

I'd like to assist you to move your party to a position of integrity on climate. I hope the attached copy of correspondence with Greg Combet will be of assistance in fulfilling your responsibility to protect taxpayer funds. Greg Combet's department grossly misrepresents climate and science. The ALP-Greens position and the RET and Carbon (Dioxide) Tax are based on documented extensive corruption of climate science funded by his department.

Your colleague Greg Hunt's self-professed belief in human CO2 causing global warming contradicts empirical scientific evidence. His responses to my letters repeatedly fail to provide any scientific basis. His denial of detailed knowledge of UN Agenda 21 contradicts Graham Williamson's research into the public record: <http://www.conscious.com.au/letters.html>. Greg Hunt downplays or seemingly hides support of this sinister campaign. Why?

On April 4<sup>th</sup>, 1998 you comprehensively publicly endorsed Liberal policy of implementing UN Agenda 21 and taking action on global "*Climate Change*". Unfounded, fabricated climate alarm is one of three core parts of the sinister UN Agenda 21. It's possible you were duped. What is your current position on UN Agenda 21? Do you support it? If so, why?

Please contact North Queenslander Carol-Ann Xxxxxxx. She's researching UN Agenda 21 and its destruction of private property rights, personal freedoms, national sovereignty and governance. She can be contacted on: XX XXXX XXXX, [xxxxxxxXXXX@gmail.com](mailto:xxxxxxxXXXX@gmail.com).

I'd be pleased to meet with you to discuss my letter to Greg Combet. I can reveal the government's vulnerability and ways to protect and secure the opposition's position.

Yours sincerely,

Malcolm Roberts
