Mr. Roger Corbett AO, Chairman
Fairfax Media Limited
GPO Box 506
Sydney NSW 2001

Dear Mr. Corbett:

**LAWFUL NOTICE BY REGISTERED POST WITH DELIVERY CONFIRMATION
WITHOUT PREJUDICE AND IN GOOD FAITH**

Enclosed is a copy of my investigation into climate science and claims made by academics and agencies funded by government. Enclosed is my report's Appendix 13. Enclosed are copies of my letters to Sydney Morning Herald (SMH) reporters Ben Cubby and Mike Carlton.

My report analyses and discusses claims and statements by SMH reporters. It is true and correct to the best of my knowledge. It reveals bias, blatant falsities and/or misrepresentations in SMH articles discussing purported human causation of global warming (aka climate change). Misrepresentations—direct or by omission—are injuring people's reputation, work and career.

I hereby complain to the Fairfax Media Board. I specifically request that the Board undertake an independent investigation into SMH's reporting of global warming (aka climate change). Due to extensive government corruption of climate science investigations need to include prominent Australian and overseas scientists respected by Australians skeptical of the unfounded and unscientific claim that human CO2 drives climate. Selection of scientists needs to be transparent.

Unless the SMH has empirical scientific evidence and logical scientific reasoning proving that damaging warming was/is/will be caused by human CO2, please stop Fairfax newspapers making direct or implied public claims that human production of CO2 needs to be cut. Please withdraw past such claims and associated articles by your newspapers. Please develop systems to ensure Fairfax publications on climate and the environment are objective, factual, balanced and correct.

In the interests of accountability and transparency this letter and your response(s), if any, will be posted on the Internet.

Yours sincerely,

Malcolm-Ieuan: Roberts.
