Mrs. Jane Prentice, MP
PO Box 6022
House of Representatives
Parliament House
Canberra ACT 2600

Dear Jane:

Thank you for your letter dated February 22nd, 2013.

Enclosed herewith is my letter of today's date to Greg Hunt and its accompanying document by Graham Williamson.

Enclosed are two books sent February 4th to prominent members of federal parliament from all three major parties.

Further to my letter dated Thursday, April 19th, 2012 not yet answered by you, I please request to meet with you in your Brisbane office. I need to discuss the federal Liberal Party's Direct Action policy advocating cutting human CO2 output. Its core objective of cutting human CO2 output contradicts empirical scientific evidence and logical scientific reasoning. Its core objective cannot be justified, contradicts empirical scientific evidence and relies on extensively documented corruption of climate science.

A second item to discuss is implicit and explicit Liberal Party and Coalition policies on UN Agenda 21. It's currently being implemented in contravention of our country's constitution and without ratification by our country's parliament or the people of Australia.

I look forward to your response and to meeting with you.

Yours sincerely,

Malcolm Roberts
