

## Summary

**Contrary to Senator Wong's public assertions in hurried defense of UN IPCC errors on Himalayan glaciers, such errors are not exceptional, they are demonstrably typical.**

**Blatant exaggerations and gross errors typify UN IPCC reports bypassing peer review and using unscientific anecdotes falsely masquerading as 'evidence'.**

**The UN IPCC's core claim of high temperatures is unfounded, was made by junior contributors and breached peer review. After it succeeded in driving unfounded world-wide climate alarm it was withdrawn.**

**Both of Earth's accurate sets of global temperature records show no net warming since 1958.**

**Contrary to UN IPCC predictions, satellites measuring 24 hours every day have found no tropospheric warming.**

**Corruption of Ground Temperature Records used by the UN IPCC**

- **Climate Research Unit, a key source of UN IPCC temperature data is corrupt (Climategate)**
- **USA's NASA and NOAA are facing claims of corruption. Both Provide global temperature data to UN IPCC.**

**UN IPCC's core claim on atmospheric CO2 levels was falsified.**

**UN IPCC political summary reports presented to media and national governments contradicted UN IPCC's own scientists' reports.**

**Amazongate highlights UN IPCC's unfounded alarm over natural wonders and ecosystems.**

**Student and hikers wrote UN IPCC's claims of unfounded disappearing mountain ice alarm.**

**Unfounded UN IPCC alarm over storms has been fabricated.**

**Unfounded UN IPCC alarm contradicted by eminent scientists—experts in their field.**

**Unfounded UN IPCC deliberate hurricane panic contradicting science.**

**Unfounded UN IPCC alarm over disease contradicts science.**

**Unfounded UN IPCC alarm in was often inserted by activists, not scientists.**

**Unfounded UN IPCC alarm about human food production.**

**Unfounded UN IPCC alarm propagates other unfounded alarm.**

**Unfounded government alarm about the Barrier Reef.**

**Zero scientific evidence for catastrophes - all unfounded.**

**More than 20 additional cases of unsubstantiated UN IPCC alarm are being exposed.**

**UN IPCC Does Not Work for National Governments - it Works for its UNEP agenda.**

**It is an Indictment of Senator Wong that when Senator Steve Fielding asked her simple, basic questions on climate, Senator Wong and her advisers could not provide scientific proof - they have no proof humans caused global warming**

**Lead Author and Editing Reviewer of UN IPCC chapter claiming human causation of warming has no scientifically measured real-world evidence humans caused warming.**

**Data obtained from the UN IPCC itself exposes UN IPCC processes as unscientific.**

**Although UN IPCC Chairman Pachauri repeatedly implied 4,000 scientists endorse the UN IPCC's core claim that human CO2 warmed Earth, only five (5) endorsed the claim. And there's doubt they were even scientists. The Prime Minister has assisted the UN IPCC in spreading this falsity.**

**In absence of sound, scientific data, the UN IPCC creatively conjured erroneous models to fabricate 'data'.**

**UN IPCC Chairman Pachauri's apparent conflicts of financial interest are public knowledge - and seemingly hugely significant.**

**The UN IPCC and its executive have thwarted and discredited real scientific research stifling real science and human progress.**

**UN IPCC senior members have repeatedly justified the use of unfounded alarm.**

**Driven by the UN IPCC deviation of funds to a non-problem (natural global warming) prevents addressing real humanitarian and environmental challenges.  
The focus on natural global warming is a damaging attack on the environment.**

**Canadian environmentalist Lawrence Solomon puts it into perspective on page 210 of his book entitled: "The Deniers" when he says, quote: "But Kyoto is not an insurance policy. Just the opposite, it is the single greatest threat today to the global environment, because it makes carbon into currency. Carbon is the element upon which all living things are built. With carbon a kind of currency—which is what all carbon taxes and carbon trading and similar schemes do—all ecosystems suddenly have a commercial value that makes them subject to manipulation for gain."**

**The Garnaut Review relies entirely and only on UN IPCC Reports.**

**It seems that for the government, it is the CPRS that matters, not CO2**

**Senator Wong: Have you caught the UN IPCC disease of creating unfounded alarm?**

**Senator Wong misrepresenting science and climate to her own party.**

**the vast majority of people inherently care for the environment, yet Senator Wong foments unfounded guilt and fear.**

**The UN IPCC's core greenhouse gas effect '*theory*' contradicts the laws of physics and nature - it's not even a theory, not even a supposition. It's a falsity.**

**The UN IPCC's '*theory*' is impossible, un-natural.  
Regular seasonal variation of atmospheric CO2 levels shows Nature controls CO2 levels and human production of CO2 cannot cause global warming.**

**Copenhagen contortions were due primarily to there being no scientifically measured real-world data that humans caused global warming - None.**

**If the UN IPCC was a company, it would be up for fraud.**

**UN IPCC reports are no basis for government's global warming policy and CPRS.**

**Dismiss the CPRS.**

**Request for Inquiry to overcome UN IPCC fraud.**

## **Conclusions**

Details and references are provided in the third document.

Public revelations prove the UN IPCC's patterns of unscientific behaviour:

- science is being bent, distorted, fabricated, tampered with, destroyed, hidden, misrepresented;
- repeatedly falsities have been fabricated;
- activists, non-experts and non-scientists bypass or distort peer review rendering it useless and rendering science broken;
- expert reviewers are prevented from checking the claimed results;
- yet the UN IPCC fraudulently attempts to reassure people the fabrications are the product of scientific procedures. Dishonesty prevails and is embedded systemically to achieve political objectives;
- the aim of unscientific UN IPCC claims appears clearly to be to spur public alarm to motivate government action in support of UN IPCC objectives. This has been achieved by politically altering scientific reports and feeding these to the media for frightening headlines - achieved.

Fraud is rife in the UN IPCC's core temperature claim and its associated claims of unfounded alarm. It has been driven from the highest levels of the UN IPCC and its sponsoring organisation, the UNEP from the UN IPCC's inception. The UN IPCC's global warming fabrication is dishonest and fraudulent - and, in places, possibly criminal.

The UN IPCC's distortion of the scientific method, its blind unfounded criticism of justified scientific scepticism, its politicised policies and its political propaganda could well damage science in the public's eye for decades.

Global warming is not a problem. There is a problem with the United Nations - a very serious problem. There is a serious problem with the Australian government's department of Climate Change and Water and the behaviour of its minister, Senator Wong.

Senator Wong's actions have seriously and for no sound reason damaged:

- science and particularly climate science, the scientific process and peer review;
- the environment—and worsen the greatest global environmental threat (carbon trading);
- the economy—and worsen humanitarian threats, particularly to the poor and vulnerable.

Senator Wong's actions, through unfounded coercion and misrepresentations aimed at encouraging Australia's adoption of the UN Framework Convention on Climate Change's Copenhagen agreement threaten to:

- destroy personal freedom of Australians;
- destroy Australia's sovereignty and democracy through ceding governance to the UN;
- erode morality, misrepresent humanity and derail people's inherent environmental care;
- end energy independence, the key to our civilisation's productivity, material security, well-being and ease.

Senator Wong's immediate and unsound defence of the UN IPCC over the unfolding Himalayan glaciers scandal demonstrated Senator Wong seems to be either:

- ill-advised; and/or;
- blind to UN IPCC flaws despite having these made clear to her on numerous occasions in writing; and/or
- involved in corruptly, fraudulently using the UN IPCC reports for personal/political gain.

The UN IPCC not only does not use solid data, sound analysis, objective assessment and considered judgement in arriving at its conclusions, the UN IPCC systemically and consistently avoids solid data, sound analysis, objective assessment and considered judgement in fabricating its core claims. This applies to many of its supporting emotive claims driving public alarm apparently aimed at motivating governments and voters to comply with its agenda.

The institutions of government and major political parties have failed Australia and the environment. We need less government, not bigger remote UN governance.

The current Prime Minister's 2007 election campaign on climate as Opposition Leader had no credible foundation and misled the people.

Adaptation to natural climate change is the only plausible policy. To deviate valuable resources to a failed *theory* peddled by bogus and fraudulent science leaves the nation and the planet vulnerable. To destroy Australia's economy for a non-problem is irresponsible and heartless. With the evidence now at hand, any politician assisting that deviation of resources will likely be doing so with no scientific foundation and for purely political reasons. Such politicians will be responsible for the deaths, in undeveloped nations, of millions of people who will likely die, or at best, live in greater misery

Please, Senator Wong:

- **launch an immediate, independent inquiry into the UN IPCC and its reports;**
- cease the destruction of science;
- cease the use of fear based on a combination of erroneous computer models projecting unfounded and unlikely future scenario with anecdotes that bypassed peer review;
- cease labelling and promoting CO2 as a pollutant;
- dismiss the CPRS
- until you have scientifically measured real-world proof that human production of CO2 caused global warming, cease your unfounded and false claims.
