SUBJECT: **Denial of leave for Dennis Jensen to table peer-
Reviewed science reports**

Dear Kate:

After reading Dennis Jensen's parliamentary speech of September 20, 2011 I noticed that his request for leave to table scientifically peer-reviewed science reports in parliament was not granted.

Was it you who denied his request? If not, please advise who.

If so, could you please explain why you disallowed scientifically peer-reviewed documents?

Do you endorse the government's reliance on deliberate deceptions, distortions, misrepresentations, omissions, evasions, and myths—the corruption of science—for its proposed tax on carbon dioxide?

Some of the many misrepresentations of science are presented at this web site: http://www.galileomovement.com.au/political_scam_exposed.php

If not, please advise what you are doing to hold accountable the perpetrators of the deception of Australia's parliament and people. Please advise what you are doing to restore sound national governance.
