The Hon Anthony Albanese, MP
Leader of the House
Minister for Infrastructure and Transport
334A Marrickville Road
Marrickville NSW 2204

Dear Mr Albanese:

Your acceptance of the invitation by organisers of today's rally outside your electorate office is appreciated. We hope you have the courage and integrity to listen to concerns from Australian citizens who you seemed to dismiss last week as being of no consequence.

Enclosed are two documents explaining the root of citizens' concerns about government corruption. Please refer to two short pages (1 & 2) of facts on carbon dioxide. Then one and a half pages proving carbon dioxide is not pollution. Nor is it affecting climate.

The second document summarises solid data exposing corruption and fraud as the basis of your government's climate policy. There is no scientific basis for your government's policy. Actions of senior members of your government highlight that your government is based on, and riddled with, corruption, deception and lies.

You are a senior member of the government. Through these documents you are personally armed with facts. It is your responsibility to stop government's deceptions.

We are available to assist you in fulfilling your responsibilities under your oath of office as a minister and as a member of parliament representing the people of Grayndler.

Yours sincerely,

Malcolm Roberts
Project Manager (voluntary)
