Dear Sir

Notice of Demand

I refer to your letter dated 30 March 2012 and provide the following advice.

The Council has engaged SMEC Australia Pty Ltd to provide independent professional consulting services in relation to the coastal erosion hazard at Lake Cathie and options for its management. The Draft Lake Cathie Coastline Management Study - Stage 2 is currently on public exhibition until 8 June 2012. The Council has made no decision in relation to the type of management option to be implemented at Lake Cathie and will not do so until the views of the community are considered as part of the exhibition process.

I encourage you to read the Draft Study report which will answer the questions in your correspondence. A copy of the draft Lake Cathie Coastline Management Study - Stage 2 and preceding reports are available on the Council's website www.pmhc.nsw.gov.au.

Yours sincerely

Neil Porter
ADMINISTRATOR
