Dear Julie:

**Re: Your letter dated March 06, 2013. Your ref: JB:JA./Roberts**

Congratulations on your re-election and appointment as Foreign Affairs Minister.

You're transitioning to a government and cabinet with the daunting task of restoring integrity, governance and sovereignty and saving billions of dollars in waste.

Referring to your letter dated March 06, 2013, has Greg Hunt responded to you?

The accompanying copy of my letter to Greg Hunt verifies his unscientific and unjustifiable position. **I confidently and truthfully know that by claiming that human carbon dioxide causes global warming and must be cut he contradicts empirical scientific evidence.** CSIRO must be investigated.

It seems that the current cabinet contains no Minister for Science. Yet the Labor-Greens alliance needs to be held publicly accountable for corruption by Rudd-Gillard-Milne actions. That will assist to quickly repeal the CO2 tax well before July 1, 2014.

Cutting Direct Action and energy subsidies will save taxpayers billions of dollars. Transparent, independent investigation of CSIRO and BOM for misrepresenting climate science will lead to saving millions of dollars in CSIRO funding.

Empirical scientific evidence and restoring integrity are fundamental to honest government and for developing effective policies in the best interest of our country.

Please contact me if I can assist you.

Yours sincerely,

Malcolm Roberts

House of Representatives  
Parliament House  
Canberra ACT 2600

PO Box 274  
Hastings Vic 3915  
Fax: (03) 5979 3034

Dear Greg:

**Re: Your stated dependence on BOM and CSIRO climate advice**

Congratulations on your re-election and appointment as a Minister.

You're transitioning to a government and cabinet with a massive task to restore integrity, governance and sovereignty and cut waste. I'll be succinct.

On Monday, September 23<sup>rd</sup>, 2013 you stated on ABC-TV's Lateline program, quote:

- *"I'll take my primary advice from the Bureau (of Meteorology) and from the CSIRO"* - after 6:33 minutes elapsed;
- *"My judgment is that the science is real"* - after 6:49 minutes elapsed;
- *"In principle support"* (for ratifying Kyoto II) - after 10:57 minutes elapsed

Lateline: <http://www.abc.net.au/lateline/content/2013/s3854893.htm>

On what basis have you made your judgment? Please provide titles and dates of CSIRO and BOM reports and briefings upon which your position and judgment rely.

**I confidently and truthfully state that you have no empirical scientific evidence supporting your judgment and position. Your position is unscientific and unfounded. It contradicts empirical scientific evidence.** I will explain why your position is based on dishonesty and is not honest.

I have comprehensively investigated climate claims and reports made by CSIRO and BOM. Both falsely imply scientific support. Yet neither has any empirical scientific evidence or logical scientific reasoning for the core claim that human carbon dioxide caused Earth's latest modest cyclic global atmospheric warming that ended in 1998.

Written responses from CSIRO's Chief Executive and BOM's Director failed to provide scientific evidence for their claim. Both misrepresent science and falsely and without foundation deceptively imply scientific evidence of human causation.

Referring to the enclosed copy of a letter from Julie Bishop, have you responded to her letter to you? You were separately sent by Registered Post two paper copies of my report entitled *CSIROh!*. Have you identified any specific errors? Replies from senior CSIRO and BOM executives have identified no specific errors.

<http://www.conscious.com.au/CSIROh!.html> See Appendices 6, 6a, 2 and 4

My recent requests of CSIRO and BOM made under **Freedom of Information** legislation reveal that CSIRO's Chief Executive has sent no reports on climate change to relevant Ministers during the years covered: 2005 or later. BOM provided one report and scratchy updates at uneven intervals. All relied on the demonstrably corrupt UN IPCC and contradict empirical scientific evidence.

<http://www.conscious.com.au/letters.html>

CSIRO has parroted the UN IPCC's "*consensus science*". That is not science. The UN IPCC has no evidence that human CO<sub>2</sub> caused global warming.

The Garnaut Review relied on the UN IPCC, CSIRO and BOM. Chapter 2 admits no evidence for your claim that human CO<sub>2</sub> affects global climate and needs to be cut.

In April 2011 I made a presentation in your office and, at your request, gave you many documents. In July 2011 your responses repeatedly failed to specify any errors.

You have not answered my letter dated March 7<sup>th</sup>, 2013 requesting clarification on your denial of detailed knowledge of UN Agenda 21 despite publicly documented support by you for UN Agenda 21 programs.

My voluntary, independent investigations for six years prove there is no evidence of human CO<sub>2</sub> causing modest cyclic global warming and cooling periods since 1850. That's consistent with data from leading climate scientists here and internationally.

**Your position does not meet my need for integrity. To meet needs for integrity and reassurance, please provide scientific evidence and identify the agencies and their reports and data on which your judgment relies.** Failure to do so will confirm my informed conclusion you have no such evidence.

Your party has inherited a mess of extraordinary breadth and depth. Rectification requires identifying truth rather than accepting false and unscientific climate claims fabricated by Kevin Rudd and Julia Gillard. They, Penny Wong and Greg Combet need to be held accountable for their lies - not echoed and thereby endorsed.

Cutting Direct Action and energy subsidies will save taxpayers billions of dollars.

In ending our previous meeting in your office you said in front of Gordon Alderson that my presentation had been one of the very best you'd ever received. I can assist you in returning to honesty on climate and am available to meet with you.

Yours sincerely,

Malcolm Roberts
